Health & Safety Measures for RRCI Summer Program 2020

Let us start by saying that we have missed you all so much and look forward to seeing your smiling faces in person. We have worked hard to create a fun and educational plan this summer!

You are all aware that a lot has changed considering the COVID19 epidemic and we at RRCI want to assure you that our consumers health & safety is our number one priority. For this reason, we have put together the following guidelines and procedures……

The Utah Department of Health has listed the following symptoms as indicators for a possible COVID19 infection:
- Cough
- Shortness of Breath
- Fever
- Chills
- Muscle Pain
- Headache
- Sore Throat
- (New) Loss of Taste or Smell

The following safety precautions will be observed for as long as necessary:
Prior to each class, students will be called and asked if they have any of the symptoms listed above. We ask that if a student has any of the above symptoms that they will remain home until symptom free.

Staff and students will be given a disposable mask daily. If a student has or would like to use their own non-disposable mask, this is acceptable.

Parents/guardians must provide a phone number that they can be reached at in case the student becomes ill or injured while at the center.

Once on site, attendees will have assigned seats and will be given a bag with their name on it containing all the necessary supplies for participation in activities. Attendees will also be given a personal tissue box and hand sanitizer for use at the center. These items will remain at the center. Attendees will be kept, and asked to remain, six feet apart at all times. Proper handwashing will be encouraged whenever applicable.

Food, Lunches, and Cooking:
Lunches will not be required Fridays as we will be cooking on site. We may occasionally provide opportunities for offsite food but will follow all proper precautions to ensure the safety of staff and attendees. We ask attendees to refrain from sharing food and drink. If your student has food allergies or special requirements make sure to list them on the application.
Cleaning:
Classrooms, kitchens, restrooms, vehicles, chairs, tables, and equipment will be cleaned/sanitized before as well as after attendees arrive to the center and throughout the day as needed.

Transportation:
Public transportation will not be used during the summer program and we ask that attendees avoid this when possible to or from the center. Transportation will be provided by the center only to those who have no other option. Please understand that we are limited by social distancing standards as well as staffing and will only be able to transport two attendees at a time.

We understand that the above information can be a bit overwhelming. We will do our best to keep things light and fun. We appreciate your understanding and participation. See you this summer!

I the undersigned hereby acknowledge that I have read the above information and understanding the risks consent to my child's active in-person participation.
